

## CS 398: Meeting Minutes

Date: Jan 10 2022

Team: 104

### Present:

- Johnny Leung
- Ajay Sharma
- Yolanda Yu
- Lucas Harvey

**Absent:** N/A

### Agenda

- Finish the project plan
- Identify our target user
- Plan out user interview questions

### Notes

- We made the mistake of picking features before we got a target audience
- We should identify users and build features based off their needs

### Decisions

- Do not focus on using block chain for storage
- Try to have all features justified through user responses
- Possible users
  - Students
  - People that care about privacy
  - Musicians
  - People that go to the gym
  - Software engineers
- Trying to have a goal defined user: People that take spontaneous notes
- Came up with user interview questions

### TODO

- Ask instructor if we can have goal based users
- Try and figure out what features this user needs
- Each team member interviews 1 person
